Dear Declan

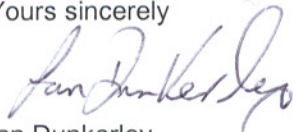

Internet Forum – www.InternetForum.org.uk

I would like to thank you on the work done to date on the Internet Forum website. I have received lots of positive feedback and compliments on the site from visitors who have found it easy to use and very informative.

From our initial meeting through to completion I found that you have conducted yourself in a very efficient and professional manner with the project more than meeting my requirements. Throughout the project you have been very flexible in adapting to changes in the specification and have kept the costs within my tight budget.

It has been a pleasure working with you and I look forward to continuing to work with you on this and other projects.

Yours sincerely
