FAO Mr Irfan Naseem

Re: Bite It

Dear Mr Naseem,

Junair Spraybooths is the UK's leading manufacturer and supplier of Spraybooths for the Automotive Industry. Our Clients range from individual Bodyshops to larger organisations including Motor Manufacturers and large Insurance Groups. We export to 16 countries in Europe and have recently established a Corporation in North America.

In July 1999. we approached several companies to discuss the design of a web site for our business. At this time we exported very little and wanted our web site to impact on our desire to grow this part of our market.

Bite IT were one of the companies we discussed our web design with and after receiving their proposal and looking at projects they had completed we had no hesitation to place our business with them.

I am pleased to say that Bite IT delivered both on design and creativity, and furthermore hit all agreed deadlines. They provided a premium service at a competitive price. They took the time and trouble to explain how the systems worked and what would best suit our business, in terms I understood.

In 2003 when we decided to extend our web site to incorporate our sister companies it was without hesitation that we once again chose Bite IT.

I would recommend Bite IT without reservation. They are a professional company who deliver an excellent service at a competitive price.

Yours sincerely

Neil Morrison
Managing Director
