Re: BITE IT

Bite IT came to the attention of Speakmans via the BNI referral organisation and was appointed in 2004 to totally revamp our web site which had become very dated.

Declan and his team made it part of their brief to get know our business prior and during the whole process to ensure that the final product was exactly what we wanted.

Speakmans have very much appreciated Bite's involvement and wealth of experience in providing us with our web site, which has without doubt, proved invaluable in attracting new business, suppliers and new employees.

We would not hesitate to recommend Bite IT.

Regards
